Provided by Harbour Guides - www.harbourguides.com

BLACK (WHITE) RUSSIAN

3 shots vodka

2 shots Kahlua

Coke or Pesi to top up (or milk)

You should use a shaker but to be honest you can get away with stirring this. Its the real deal and the above amounts can vary depending on taste and required effect. This one will give you a satisfying kick without you having to drink too much mixer. If you use milk youll have a white Russian a la The Big Lebowski, which is arguably a much nicer drink.

So mix the vodka and Kahlua and pour it over half a highball glass of ice. Stir it all together before topping up with the Cola or Milk. Do not stir again. This way the intensity of the flavour increases as you sip it, which is a very pleasant experience.

HALLOWEEN COCKTAIL

Provided by Harbour Guides - www.harbourguides.com

VOODOO CHILD COCKTAIL RECIPE

Ok its Halloween night, and the Harbourguides crew use any excuse to have a party, so tonight will be no exception. We have chosen the "Voodoo Child Cocktail";

Just follow the recipe below, and don't worry if you can't get all the ingredients, just improvise, and let us know how you went on.

So here we go:

Put .75 oz each of Dark Rum, White Rum, St Germaine Elderflower Liqueur, and Cointreau into a cocktail shaker. Add 1 oz of freshly squeezed grapefruit juice, a dash of Angostura Bitters, and half a dozen dashes of chili tincture, or a light bodied hot sauce (Follow the link below on how to make a tincture) add some ice and give it a good old shake for 20 seconds or so. Strain into tumbler over some ice.

And then of course enjoy!

If you don't have the time or effort to make the tincture just add some hot sauce, maybe tabasco to the drink, or even into the ice cubes, this way the heat sort of builds up as the ice melts.

Happy Halloween to each and everyone of you from the Harbourguides Crew! WOOHAAAA!!!

WHITE RUSSIAN COCKTAIL RECIPE

Provided by Harbour Guides - www.harbourguides.com

BLACK (WHITE) RUSSIAN

3 shots vodka

2 shots Kahlua

Coke or Pesi to top up (or milk)

Ice

You should use a shaker but to be honest you can get away with stirring this. Its the real deal and the above amounts can vary depending on taste and required effect. This one will give you a satisfying kick without you having to drink too much mixer. If you use milk youll have a white Russian a la The Big Lebowski, which is arguably a much nicer drink.

So mix the vodka and Kahlua and pour it over half a highball glass of ice. Stir it all together before topping up with the Cola or Milk. Do not stir again. This way the intensity of the flavour increases as you sip it, which is a very pleasant experience.
